**PACIFIC GAS AND ELECTRIC COMPANY'S (U 39 M)  
PROOF OF RULE 3.2(e) COMPLIANCE**

Pacific Gas and Electric Company (PG&E) hereby provides proof of compliance with Rule 3.2(e) of the California Public Utilities Commission's Rules of Practice and Procedure:

Mailing of Notice to State, County and City Officials

PG&E met the requirement specified in Rule 3.2(b) by serving notice to State, County and City officials within its service area within 20 days of the date of its application filing. PG&E mailed notice of its application to approximately 600 state, county and city officials within its service area, listed on the current Roster published by the Secretary of State, on January 2, 2019. Due to a postal error, 134 of the notices were returned to PG&E after January 17, 2019. Each address on the returned notices was verified via state, county and city websites and confirmed correct. On January 28, 2019, the 134 notices were re-mailed as originally addressed. (See Attachment A.)

Publication

PG&E met the requirement specified in Rule 3.2(c) by publishing notice of its application in newspapers of general circulation within its service area within 20 days of the date of its application filing. Notice of this application appeared in newspapers on or before December 28, 2018. (See Attachment B.)

Mailing of Bill Insert to All Customers

PG&E met the notice requirement specified in Rule 3.2(d) by mailing a bill insert describing the rate increase associated with the above-referenced Application to affected customers within 45 days of the date of its application filing. Mailing of the insert was completed on January 24, 2019. (See Attachment C.)

In addition, customers who receive electronic bills from PG&E received the insert in Attachment C as part of their bill packages. Circulation of this bill insert in electronic bills began on January 22, 2019. (See Attachment D.)

Respectfully Submitted,

**NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR ITS GENERAL RATE CASE APPLICATION (A.18-12-009)**

**Summary**

On December 13, 2018, Pacific Gas and Electric Company (PG&E) filed its 2020 General Rate Case application with the California Public Utilities Commission (CPUC). The application supports PG&E's commitment to deliver safe, reliable and clean energy, while continuing to make its network more resilient to the challenges of climate change.

The application requests funding to further protect customers and communities from the growing threat of wildfires by strengthening PG&E's electric distribution system and scaling up its emergency response capability.

**Background**

Every three years, PG&E is required to file a General Rate Case application with the CPUC. The application is used to propose costs of operating and upgrading our electric and gas distribution systems. PG&E is proposing safety investments and infrastructure upgrades to continue to increase wildfire prevention and electric reliability. Programs in the application, many of which are intended to further reduce future risk of fire, include the following:

- Replacing 2,000 miles of distribution overhead power line in high-fire risk areas with covered conductors;
- Replacing wooden poles with non-wood poles;
- Implementing SmartMeter™ technology to more quickly identify and respond to fallen power lines;
- Increasing ongoing work to keep power lines clear of branches from the more than 120 million trees with the potential to grow or fall into our overhead power lines;
- Enhancing PG&E's Wildfire Safety Operations Center;
- Adding several hundred more fire cameras, weather stations and communications capabilities.

PG&E is seeking an increase of \$1.058 billion for 2020 and additional increases of \$454 million and \$486 million in 2021 and 2022, respectively.

**How will PG&E's application affect electric rates?**

Many customers receive bundled electric service from PG&E, meaning they receive electric generation, transmission and distribution services.

Based on rates currently in effect, the electric bill for a typical residential bundled nonCARE customer using 500 kWh per month would increase from \$113.64 to \$122.37, or 7.7 percent. Actual impacts will vary depending on energy usage.

Direct Access and Community Choice Aggregation customers only receive electric transmission and distribution services from PG&E. On average, these customers will see an increase of 7.5 percent.

Departing Load customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required by law or CPUC decision to pay certain charges. On average, these customers will see an increase of 3 percent.

Detailed rate information is included in a bill insert being sent directly to customers in December 2018 and January 2019.

**How will PG&E's application affect gas rates?**

Based on rates currently in effect, the gas bill for a typical residential nonCARE customer averaging 34 therms per month of gas usage would increase from \$52.30 to \$54.13, or 3.5 percent. Actual impacts will vary depending on energy usage across months.

Detailed rate information is included in a bill insert being sent directly to customers in December 2018 and January 2019.

### **How do I find out more about PG&E's proposals?**

If you have questions about PG&E's filing, please contact PG&E at **1-800-743-5000**. For TTY, call **1-800-652-4712**. Para más detalles llame al **1-800-660-6789** • 詳情請致電 **1-800-893-9555**. If you would like a copy of PG&E's filing and exhibits, please write to PG&E at the address below:

A copy of PG&E's filing and exhibits is also available for review at the CPUC's Central Files office by appointment only. For more information, contact **aljcentralfilesid@cpuc.ca.gov** or **1-415-703-2045**. PG&E's application (without exhibits) is available on the CPUC's website at **www.cpuc.ca.gov**.

### **CPUC process**

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The California Public Advocates Office (CalPA) may review this application. CalPA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. CalPA has a multidisciplinary staff with expertise in economics, finance, accounting and engineering. For more information about CalPA, please call **1-415-703-1584**, email **PublicAdvocatesOffice@cpuc.ca.gov** or visit CalPA's website at **www.publicadvocates.cpuc.ca.gov**.

### **Stay informed**

**DECLARATION OF PUBLICATION OF NOTICE OF PACIFIC GAS AND  
ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR ITS  
GENERAL RATE CASE APPLICATION (A.18-12-009)**

I, ERICA KOZOCAS declare:

I am a Senior Production/Project Manager employed by Brainchild Creative, at 12 Geary Street, San Francisco, California. I am responsible for working with Karen Alcantara, Sr. Paralegal, and/or Stephanie Simos, Communications Representative, Expert, (Alcantara/Simos) of Pacific Gas and Electric Company (the Company) to prepare the attached Notice of Pacific Gas and Electric Company's Request to Increase Rates for Its General Rate Case Application, Application number 18-12-009 (Notice), and to schedule the earliest possible publication dates with the 53 newspapers in the Company's service territory. When Alcantara/Simos of the Company contacted me concerning the need to publish the Notice, I drafted the publishing schedule for the 53 newspapers (also attached herewith). I forwarded the attached schedule of publication dates to Alcantara/Simos and was notified the dates were acceptable. I then contacted the 53 newspapers to reserve the publication dates. I receive the proofs of publication from each of the 53 newspapers within 10 days after publication, which I collect and then download to the Company's Box account for electronic storage.

I declare under penalty of perjury that the foregoing is true and correct.

In San Francisco, California, this 7 day of January 2019.

  
ERICA KOZOCAS

## NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR ITS GENERAL RATE CASE APPLICATION (A.18-12-009)

### SUMMARY

On December 13, 2018, Pacific Gas and Electric Company (PG&E) filed its 2020 General Rate Case application with the California Public Utilities Commission (CPUC). The application supports PG&E's commitment to deliver safe, reliable and clean energy, while continuing to make its network more resilient to the challenges of climate change.

The application requests funding to further protect customers and communities from the growing threat of wildfires by strengthening PG&E's electric distribution system and scaling up its emergency response capability.

### BACKGROUND

Every three years, PG&E is required to file a General Rate Case application with the CPUC. The application is used to propose costs of operating and upgrading our electric and gas distribution systems. PG&E is proposing safety investments and infrastructure upgrades to continue to increase wildfire prevention and electric reliability. Programs in the application, many of which are intended to further reduce future risk of fire, include the following:

- Replacing 2,000 miles of distribution overhead power line in high-fire risk areas with covered conductors;
- Replacing wooden poles with non-wood poles;
- Implementing SmartMeter™ technology to more quickly identify and respond to fallen power lines;
- Increasing ongoing work to keep power lines clear of branches from the more than 120 million trees with the potential to grow or fall into our overhead power lines;
- Enhancing PG&E's Wildfire Safety Operations Center;
- Adding several hundred more fire cameras, weather stations and communications capabilities.

PG&E is seeking an increase of \$1.058 billion for 2020 and additional increases of \$454 million and \$486 million in 2021 and 2022, respectively.

### HOW WILL PG&E'S APPLICATION AFFECT ELECTRIC RATES?

Many customers receive bundled electric service from PG&E, meaning they receive electric generation, transmission and distribution services.

Based on rates currently in effect, the electric bill for a typical residential bundled nonCARE customer using 500 kWh per month would increase from \$113.64 to \$122.37, or 7.7 percent. Actual impacts will vary depending on energy usage.

Direct Access and Community Choice Aggregation customers only receive electric transmission and distribution services from PG&E. On average, these customers will see an increase of 7.5 percent.

Departing Load customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required by law or CPUC decision to pay certain charges. On average, these customers will see an increase of 3 percent.

Detailed rate information is included in a bill insert being sent directly to customers in December 2018 and January 2019.

### HOW WILL PG&E'S APPLICATION AFFECT GAS RATES?

Based on rates currently in effect, the gas bill for a typical residential nonCARE customer averaging 34 therms per month of gas usage would increase from \$52.30 to \$54.13, or 3.5 percent. Actual impacts will vary depending on energy usage across months.

Detailed rate information is included in a bill insert being sent directly to customers in December 2018 and January 2019.

### HOW DO I FIND OUT MORE ABOUT PG&E'S PROPOSALS?

If you have questions about PG&E's filing, please contact PG&E at 1-800-743-5000. For TTY, call 1-800-652-4712. If you would like a copy of PG&E's filing and exhibits, please write to PG&E at the address below:

Pacific Gas and Electric Company  
2020 General Rate Case Phase 1 Application (A.18-12-009) or  
Nuclear Decommissioning Cost Triennial Proceeding Application (A.18-12-008)

P.O. Box 7442  
San Francisco, CA 94120

A copy of PG&E's filing and exhibits is also available for review at the CPUC's Central Files office by appointment only. For more information, contact [ajcentralfiles@cpuc.ca.gov](mailto:ajcentralfiles@cpuc.ca.gov) or 1-415-703-2045. PG&E's application (without exhibits) is available on the CPUC's website at [www.cpuc.ca.gov](http://www.cpuc.ca.gov).

### CPUC PROCESS

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

## NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR ITS NUCLEAR DECOMMISSIONING APPLICATION (A.18-12-008)

### SUMMARY

On December 13, 2018, Pacific Gas and Electric Company (PG&E) filed its 2018 Nuclear Decommissioning Cost Triennial Proceeding application with the California Public Utilities Commission (CPUC). In this application, PG&E presents the costs that are necessary to safely and responsibly decommission Diablo Canyon Power Plant and to complete decommissioning and remediation activities associated with Humboldt Bay Power Plant Unit 3. If this application is approved, it would increase electric rates beginning in 2020.

### BACKGROUND

Every three years, PG&E is required to file a Nuclear Decommissioning Cost Triennial Proceeding application with the CPUC. This current application includes updated decommissioning costs since the 2015 application was filed (A.16-03-006).

This application is consistent with the CPUC's decision to retire Diablo Canyon Power Plant in 2025 to meet California's evolving energy policies and increase the use of renewable energy and energy efficiency resources.

The application includes costs related to the following:

- Planning and preparation for decommissioning activities
- Obtaining necessary regulatory approvals and permits
- Demolition and disposal of existing site facilities
- Site restoration activities
- Managing spent nuclear fuel storage until disposal by the Department of Energy
- Maintaining necessary security operations

PG&E is seeking \$417 million for each of the years covered in this application, which are 2020, 2021 and 2022.

### HOW WILL PG&E'S APPLICATION AFFECT ELECTRIC RATES?

Many customers receive bundled electric service from PG&E, meaning they receive electric generation, transmission and distribution services. Based on rates currently in effect, the bill for a typical residential bundled nonCARE customer using 500 kWh per month would increase from \$113.64 to \$116.03, or 2.1 percent. Actual impacts will vary depending on energy usage.

Direct Access and Community Choice Aggregation customers only receive electric transmission and distribution services from PG&E. On average, these customers will see an increase of 4.2 percent.

Departing Load customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required by law or CPUC decision to pay certain charges. On average, these customers will see an increase of 39.8 percent.

Detailed rate information is included in a bill insert being sent directly to customers in December 2018 and January 2019.

The California Public Advocates Office (CalPA) may review this application. CalPA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. CalPA has a multidisciplinary staff with expertise in economics, finance, accounting and engineering. For more information about CalPA, please call 1-415-703-1584, email [PublicAdvocatesOffice@cpuc.ca.gov](mailto:PublicAdvocatesOffice@cpuc.ca.gov) or visit CalPA's website at [www.publicadvocates.cpuc.ca.gov](http://www.publicadvocates.cpuc.ca.gov).

## CPUC process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The California Public Advocates Office (CalPA) may review this application. CalPA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. CalPA has a multidisciplinary staff with expertise in economics, finance, accounting and engineering. For more information about CalPA, please call 1-415-703-1584, email [PublicAdvocatesOffice@cpuc.ca.gov](mailto:PublicAdvocatesOffice@cpuc.ca.gov) or visit CalPA's website at [www.publicadvocates.cpuc.ca.gov](http://www.publicadvocates.cpuc.ca.gov).

## NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR ITS GENERAL RATE CASE APPLICATION (A.18-12-009)

## Summary

On December 13, 2018, Pacific Gas and Electric Company (PG&E) filed its 2020 General Rate Case application with the California Public Utilities Commission (CPUC). The application supports PG&E's commitment to deliver safe, reliable and clean energy, while continuing to make its network more resilient to the challenges of climate change.

The application requests funding to further protect customers and communities from the growing threat of wildfires by strengthening PG&E's electric distribution system and scaling up its emergency response capability.

## Background and more information

Every three years, PG&E is required to file a General Rate Case application with the CPUC. The application is used to propose costs of operating and upgrading our electric and gas distribution systems.

PG&E is proposing safety investments and infrastructure upgrades to continue to increase wildfire prevention and electric reliability. Programs in the application, many of which are intended to further reduce future risk of fire, include the following:

- Replacing 2,000 miles of distribution overhead power line in high-fire risk areas with covered conductors;
- Replacing wooden poles with non-wood poles;
- Implementing SmartMeter™ technology to more quickly identify and respond to fallen power lines;
- Increasing ongoing work to keep power lines clear of branches from the more than 120 million trees with the potential to grow or fall into our overhead power lines;
- Enhancing PG&E's Wildfire Safety Operations Center;
- Adding several hundred more fire cameras, weather stations and communications capabilities.

PG&E is seeking an increase of \$1.058 billion for 2020 and additional increases of \$454 million and \$486 million in 2021 and 2022, respectively.

### How will PG&E's application affect electric rates?

Many customers receive bundled electric service from PG&E, meaning they receive electric generation, transmission and distribution services. A summary of the rate impact for these customers is provided below.

 Customer Class	Current Average (¢/kWh)	Proposed Average (¢/kWh)	Percentage Change
Residential	20.52	22.12	7.8%
Small Commercial	23.97	25.70	7.2%
Medium Commercial	21.49	22.72	5.8%
Large Commercial	18.57	19.60	5.5%
Streetlights	23.29	24.30	4.3%
Standby	17.31	18.14	4.8%
Agriculture	20.35	21.77	7.0%
Industrial	14.98	15.65	4.4%
Average System Rate Change	19.82	21.15	6.7%

Based on rates currently in effect, the electric bill for a typical residential bundled nonCARE customer using 500 kWh per month would increase from \$113.64 to \$122.37, or 7.7 percent. Actual impacts will vary depending on energy usage.

Direct Access and Community Choice Aggregation customers only receive electric transmission and distribution services from PG&E. On average, these customers will see an increase of 7.5 percent.

Departing Load customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required by law or CPUC decision to pay certain charges. On average, these customers will see an increase of 3 percent.

### How will PG&E's application affect gas rates?

A summary of the rate impact for PG&E's gas customers is provided on the right.

 Customer Class	Current Average (\$ per therm)	Proposed Average (\$ per therm)	Percent Change
Core bundled customers who receive gas supplies from PG&E			
Residential <sup>1</sup>	1.538	1.592	3.5%
Small Commercial <sup>1</sup>	1.081	1.110	2.7%
Large Commercial	0.828	0.840	1.4%
Natural Gas Vehicle Customer Compression	0.683	0.690	1.0%
Natural Gas Vehicle PG&E Compression	2.099	2.094	-0.2%
Core customers who purchase gas from a third party (see below for description)			
Residential <sup>1</sup>	1.219	1.273	4.4%
Small Commercial <sup>1</sup>	0.778	0.808	3.7%
Large Commercial	0.555	0.566	2.1%
Natural Gas Vehicle Customer Compression	0.412	0.418	1.6%
Natural Gas Vehicle PG&E Compression	1.827	1.823	-0.2%
Noncore customers who purchase gas from a third party			
Industrial Distribution	0.351	0.364	3.7%
Industrial Transmission	0.199	0.201	0.9%
Industrial Backbone	0.088	0.089	1.3%
Electric Generation Distribution/Transmission	0.156	0.156	0.1%
Electric Generation: Backbone	0.053	0.053	0.4%
Natural Gas Vehicle: Distribution	0.337	0.350	3.8%
Natural Gas Vehicle: Transmission	0.184	0.185	0.6%
Wholesale Transport Service			
Alpine Natural Gas	0.126	0.126	0.0%
Coalinga	0.126	0.126	0.0%
Island Energy	0.137	0.137	0.0%
Palo Alto	0.124	0.124	0.0%
West Coast Gas: Castle	0.317	0.331	4.5%
West Coast Gas: Mather Distribution	0.374	0.393	5.0%
West Coast Gas: Mather Transmission	0.127	0.127	0.0%

<sup>1</sup> CARE customers receive a 20 percent discount on transportation and procurement and are exempt from PG&E's Public Purpose Program Surcharge and CSI Solar Water Heater rate components.

Based on rates currently in effect, the gas bill for a typical residential nonCARE customer averaging 34 therms per month of gas usage would increase from \$52.30 to \$54.13, or 3.5 percent. Actual impacts will vary depending on energy usage across months.
