The Hon. Steven Roscow
Administrative Law Judge

A.15-09-001 – Agenda ID #16474
Request for Extension of Time to File Comments

Dear Judge Roscow:

Pursuant to Rule 11.6, this letter requests an extension of time until June 24, 2018, or until 20 days after all responsive documents described in the next paragraph have been produced, if that date is later, for my comments and any filed at my behest. I do not believe this extension affects the timing of any comments that might be filed independently by other parties to A.15-09-001. However, I have notified the active parties and received no objections.

Friday, I received a communication regarding Public Records Act request 18-198, which indicates that the Commission has located disclosable records, but does not intend to provide any of them until June 4, 2018, which is after the period for comments. After the close of business Friday, I learned that an additional request for a single document (18-192) would not be available until May 25, 2018. I would like to review these documents for facts that may be material to my comments.

I also learned Friday that I will not have the assistance of co-counsel in completing an opposition to a demurrer in a complex civil rights action, which I have undertaken pro bono. That opposition must be served in the next three days. I did not receive this demurrer until April 26, 2018.

I note that the proposed decision did not occur within the statutory timeframe, but has occurred at a time when I face critical and time-consuming commitments in multiple pieces of public interest litigation in which I am currently the sole attorney. I will try to resolve some of these prior to June 4, 2018, but do not rule out the possible need for further extensions.

Sincerely,

Scott J. Rafferty
