**PACIFIC GAS AND ELECTRIC COMPANY'S (U 39 M)
PROOF OF RULE 13.1(b) COMPLIANCE**

Pacific Gas and Electric Company (PG&E) files herewith proof of compliance with Rule 13.1(b) of the California Public Utilities Commission's Rules of Practice and Procedure regarding Notice of Evidentiary Hearing in the 2017 General Rate Case, Application No. 15-09-001 (Notice).

Posting

PG&E met the requirement specified in Rule 13.1(b) by timely posting the required Notice in front counter offices throughout its service area. The Notice was posted in front counters on or before May 27, 2016. (See Attachment A.)

Publication

PG&E met the additional requirement in Rule 13.1(b) by publishing the required Notice in newspapers of general circulation within its service area on or before May 27, 2016. (See Attachment B.)

Concerning Judge Roscow's June 3, 2016 email ruling postponing the evidentiary hearings for two weeks, PG&E does not intend to renote the postponed hearings. This is because the newspaper notices and front counter postings direct customers to the CPUC's Daily

Calendar for any changes to the dates, times or locations of the hearings.

Respectfully Submitted,

NOTICE OF EVIDENTIARY HEARINGS REGARDING PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR THE 2017 GENERAL RATE CASE (A.15-09-001)

Scheduled at 9:00 a.m., **June 13 – 17; June 20 – 24; and June 27 – July 1** at the address below:

California Public Utilities Commission Courtroom, State Office Building, 505 Van Ness Avenue
San Francisco, CA 94102

Summary

On September 1, 2015, Pacific Gas and Electric Company (PG&E) submitted an application (15-09-001) with the California Public Utilities Commission (CPUC) for approval to increase rates to operate, maintain and upgrade PG&E's electric distribution, gas distribution and electric generation facilities. The requested rate increase would begin January 1, 2017. This application is known as PG&E's General Rate Case (GRC). The CPUC will hold evidentiary hearings regarding PG&E's GRC application at the time and place noted above. The assigned Administrative Law Judge (Judge) for this proceeding will facilitate these hearings. The CPUC will ultimately make a decision on what is reasonable for customers to pay in rates. The current CPUC approved revenue for 2016 is \$7.9 billion. If this request is approved, PG&E will increase revenue \$333 million in 2017, followed by an additional increase of \$469 million in 2018 and, in 2019, an additional increase of \$368 million. The cumulative total increase for the 2017-2019 GRC will be \$2.305 billion as compared to the current revenue amount.

Please note: The Commission Courtroom is wheelchair accessible. If you wish to attend and need specialized accommodations, please contact the Public Advisor's Office (PAO) at least five business days prior to the hearing date. Any changes to the dates, times, and locations of the hearings will be posted to the CPUC's Daily Calendar.

About the filing

Every three years, PG&E is required to file a GRC with the CPUC. The annual revenue requirement is the total amount of money a utility collects through rates in a given year for specific purposes. While the GRC will determine the total amount of money PG&E can collect in rates for certain purposes, the design of the actual rates themselves and the price charged to customers will be determined in separate proceedings to be filed in the future with the CPUC. The actual distribution of the increase to each customer class depends on how the CPUC ultimately decides the GRC, as well as the separate electric rate design proceeding expected to be filed with the CPUC in June 2016.

If you would like a copy of PG&E's application filing and exhibits, please write to: PG&E, General Rate Case (A.15-09-001), P.O. Box 7442, San Francisco, CA 94120. A copy of PG&E's filing and exhibits may also be reviewed at the CPUC's Central Files Office at 505 Van Ness Avenue, San Francisco, CA by appointment. For more information, please contact them at aljcentralfilesid@cpuc.ca.gov or 1-415-703-2045.

Evidentiary hearings

At the evidentiary hearings noted above, PG&E and other formal parties to the proceeding will present their evidence through testimony and will be subject to cross-examination before the Judge. **The hearings are open to the public, but only those who are formal parties are permitted to present evidence and/or cross-examine witnesses.** After considering all proposals and evidence presented during the formal process, the Judge will issue a proposed decision which may accept PG&E's proposal, modify it or deny it. Any of the five Commissioners may also issue an alternate decision based on the record. The proposed decision and any alternates will be voted upon at a scheduled CPUC Voting Meeting.

CPUC process

As a party of record, the Office of Ratepayer Advocates (ORA) has reviewed this application.
