**NOTICE OF APPLICATION**  
**Southern California Edison Company's Request to Increase Water Rates**  
**APPLICATION A.20-10-018**

**Why am I receiving this notice?**

On October 30, 2020, Southern California Edison Company (SCE) filed with the California Public Utilities Commission (CPUC) SCE's Application No. 20-10-018 for authority to increase rates for water service on Santa Catalina Island (Catalina) and recover costs from water and electric customers. SCE is requesting a total of \$9.312 million in authorized revenues in its application.

If the CPUC approves this application, SCE will recover forecasted costs in rates over a five-year period beginning in 2022 and ending in 2026. This will impact your bill.

**Why is SCE requesting this rate increase?**

SCE is requesting this rate increase to recover:

- Operating expenses required to safely and effectively operate the Catalina water utility;
- Infrastructure necessary to produce and distribute safe drinking water to customers and visitors to Catalina; and
- Historical capital expenditures for water utility plant in service, not in authorized rate base, including a fair return on rate base;
- Incremental Operations and Maintenance expense due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan; and
- Deferred revenues resulting from SCE's five-year revenue-requirement phase-in proposal.

**How could this affect my water bill?**

If SCE's rate request is approved by the CPUC, there will be a five-year rate increase beginning in 2022. The average residential bill with a 5/8" meter using 1,466 gallons per month would increase by approximately \$29.03 or 40% per month in 2022 and up to approximately \$110.52 or 153% in 2026. In the tables below, SCE is showing the impact of the initial rate increase in Year 1 as well as the impact to collect the full revenue requirement in Year 5. The Year 1 proposed rate change in Table 1 is calculated above current authorized rates. The Year 5 rate change in Table 2 is calculated above the proposed Year 4 rates.

**NOTICE OF APPLICATION**  
**Southern California Edison Company's Request to Increase Electricity Rates**  
**APPLICATION A.20-10-018**

**Why am I receiving this notice?**

On October 30, 2020, Southern California Edison Company (SCE) filed with the California Public Utilities Commission (CPUC) SCE's Application No. 20-10-018 for authority to increase rates for water service on Santa Catalina Island (Catalina) and recover costs from water and electric customers. SCE's cost recovery proposal will likely increase the electricity rates for the customers in SCE's service territory. The application is requesting a total of \$29 million in drought and environmental expenses, as well as deferred revenues from SCE's proposed five-year revenue requirement phase-in as discussed below.

If the CPUC approves this application, SCE will recover \$19 million in drought and environmental costs in rates over a one-year period beginning in 2022. \$10 million in deferred revenues will also be collected on an ongoing basis over the five-year phase-in period, starting in 2022 and ending in 2026. This will impact your bill.

**Why is SCE requesting this rate increase?**

SCE is requesting this rate increase to recover:

- Incremental Operations and Maintenance expenses due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan;
- Environmental related capital expenditures completed between 2012 and 2019; and
- Deferred revenues resulting from SCE's five-year revenue-requirement phase-in proposal.

**How could this affect my electricity bill?**

If SCE's rate request is approved by the CPUC, the average residential monthly bill using 550 kWh per month would increase by approximately \$0.29 or 0.2% per month in 2022.

**NOTICE OF APPLICATION**  
**Southern California Edison Company's Request to Increase Electricity Rates**  
**APPLICATION A.20-10-018**

**Why am I receiving this notice?**

On October 30, 2020, Southern California Edison Company (SCE) filed with the California Public Utilities Commission (CPUC) SCE's Application No. 20-10-018 for authority to increase rates for water service on Santa Catalina Island (Catalina) and recover costs from water and electric customers. SCE's cost recovery proposal will likely increase the electricity rates for the customers in SCE's service territory. The application is requesting a total of \$29 million in drought and environmental expenses, as well as deferred revenues from SCE's proposed five-year revenue requirement phase-in as discussed below.

If the CPUC approves this application, SCE will recover \$19 million in drought and environmental costs in rates over a one-year period beginning in 2022. \$10 million in deferred revenues will also be collected on an ongoing basis over the five-year phase-in period, starting in 2022 and ending in 2026. This will impact your bill.

**Why is SCE requesting this rate increase?**

SCE is requesting this rate increase to recover:

- Incremental Operations and Maintenance expenses due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan;
- Environmental related capital expenditures completed between 2012 and 2019; and
- Deferred revenues resulting from SCE's five-year revenue requirement phase-in proposal.

**How could this affect my electricity bill?**

If SCE's rate request is approved by the CPUC, the average residential monthly bill using 550 kWh per month would increase by approximately \$0.29 or 0.2% per month in 2022.

**How does the rest of this process work?**

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SCE's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ## **NOTICE OF APPLICATION SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO INCREASE WATER RATES**

### **Application A.20-10-018**

---

#### **WHY AM I RECEIVING THIS NOTICE?**

On October 30, 2020, Southern California Edison Company (SCE) filed with the California Public Utilities Commission (CPUC) SCE's Application No. 20-10-018 for authority to increase rates for water service on Santa Catalina Island (Catalina) and recover costs from water and electric customers. SCE is requesting a total of \$9.312 million in authorized revenues in its application.

If the CPUC approves this application, SCE will recover forecasted costs in rates over a five-year period beginning in 2022 and ending in 2026. This will impact your bill.

## WHY IS SCE REQUESTING THIS RATE INCREASE?

SCE is requesting this rate increase to recover:

- Operating expenses required to safely and effectively operate the Catalina water utility;
- Infrastructure necessary to produce and distribute safe drinking water to customers and visitors to Catalina; and
- Historical capital expenditures for water utility plant in service, not in authorized rate base, including a fair return on rate base
- Incremental Operations and Maintenance expense due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan; and
- Deferred revenues resulting from SCE's five-year revenue-requirement phase-in proposal.

## HOW COULD THIS AFFECT MY WATER BILL?

If SCE's rate request is approved by the CPUC, there will be a five-year rate increase beginning in 2022. The average residential bill with a 5/8" meter using 1,466 gallons per month would increase by approximately \$29.03 or 40% per month in 2022 and up to approximately \$110.52 or 153% in 2026. In the tables below, SCE is showing the impact of the initial rate increase in Year 1 as well as the impact to collect the full revenue requirement in Year 5. The Year 1 proposed rate change in Table 1 is calculated above current authorized rates. The Year 5 rate change in Table 2 is calculated above the proposed Year 4 rates.

## HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SCE's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information, please call **1-415-703-1584**, email **PublicAdvocatesOffice@cpuc.ca.gov**, or visit **PublicAdvocates.cpuc.ca.gov**.

## **NOTICE OF APPLICATION SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO INCREASE ELECTRICITY RATES**

### **Application A.20-10-018**

---

#### **WHY AM I RECEIVING THIS NOTICE?**

On October 30, 2020, Southern California Edison Company (SCE) filed with the California Public Utilities Commission (CPUC) SCE's Application No. 20-10-018 for authority to increase rates for water service on Santa Catalina Island (Catalina) and recover costs from water and electric customers. SCE's cost recovery proposal will likely increase the electricity rates for the customers in SCE's service territory. The application is requesting a total of \$29 million in drought and environmental expenses, as well as deferred revenues from SCE's proposed five-year revenue requirement phase-in as discussed below.

If the CPUC approves this application, SCE will recover \$19 million in drought and environmental costs in rates over a one-year period beginning in 2022. \$10 million in deferred revenues will also be collected on an ongoing basis over the five-year phase-in period, starting in 2022 and ending in 2026. This will impact your bill.

**WHY IS SCE REQUESTING THIS RATE INCREASE?**

SCE is requesting this rate increase to recover:

- Incremental Operations and Maintenance expenses due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan;
- Environmental related capital expenditures completed between 2012 and 2019; and
- Deferred revenues resulting from SCE’s five-year revenue-requirement phase-in proposal.

**HOW COULD THIS AFFECT MY ELECTRICITY BILL?**

If SCE’s rate request is approved by the CPUC, the average residential monthly bill using 550 kWh per month would increase by approximately \$0.29 or 0.2% per month in 2022.

**Proposed Electricity Rate Increase**

Bundled Average Rates (¢/kWh)				
Customer Group	Current Rates (¢/kWh)	Proposed Increase (¢/kWh)	Proposed Rates (¢/kWh)	% Increase
Residential	20.9	0.05	20.9	0.2%

<b>TOTAL</b>	<b>18.5</b>	<b>0.04</b>	<b>18.6</b>	<b>0.2%</b>

Residential Bill Impact (\$/Month)				
Description	Current	Proposed Increase	Proposed	% Increase
Non-CARE residential bill	\$127.65	\$0.29	\$127.94	0.2%
CARE residential bill	\$86.36	\$0.20	\$86.55	0.2%

## HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SCE's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information on the Public Advocates Office, please call **1-415-703-1584**, email **PublicAdvocatesOffice@cpuc.ca.gov**, or visit **PublicAdvocates.cpuc.ca.gov**.

## Notices

On October 13, 2016, the California Public Utilities Commission (CPUC) issued Decision (D.)16-10-008, which approved a Settlement Agreement between Southern California Edison Company (SCE), The Office of Ratepayer Advocates (ORA), and The Utility Reform Network (TURN). The Settlement Agreement resolves litigation regarding three previous CPUC Decisions that awarded SCE shareholder incentives for energy efficiency savings achieved during the 2006-2008 Energy Efficiency program cycle. Pursuant to the Settlement Agreement, SCE agrees to return to its customers \$13.5 million in equal amounts over a three year period. Alternatively, at its option SCE may accelerate the refund by crediting the present value, \$12.38 million, via a one-time credit to SCE's Base Revenue Requirement Balancing Account (BRRBA) within 30 days of CPUC's approval of the Settlement Agreement. SCE elected to accelerate the refund, and on November 11, 2016, SCE credited the BRRBA in the amount of \$12.38 million, which offsets the rates SCE collects from its customers through the BRRBA. Agreement, may be accessed by visiting this [link](#).
