Application of Southern California Edison
Company (U 338-E) for Authority to Increase
Rates for its Class C Catalina Water Utility and
Recover Costs from Water and Electric
Customers.

A.20-10-018

**SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) PROOF OF
COMPLIANCE WITH RULE 13.1(B) & (C) OF THE COMMISSION'S RULES OF
PRACTICE AND PROCEDURE**

Pursuant to Rule 13.1 of the Rules of Practice and Procedure of the California Public Utilities Commission (Commission or CPUC), Southern California Edison Company (SCE) hereby submits its Proof of Compliance with Rule 13.1(b)'s notice requirements regarding the public participation hearings scheduled for March 30, 2021 in SCE's Application No. 20-10-018. Rule 13.1(b) requires that when a utility files an application to increase rates and hearings are scheduled, notice of the hearings is to be posted in public places¹ and published in newspapers of general circulation in the areas in which the increase is proposed to be made effective. Additionally, Rule 13.1(c) allows the presiding officer to impose other means of providing notice of the hearings. Proof of publication and sample copies of the notices appearing in the newspapers are to be filed within 10 days after publication.

¹ ALJ Toy's email ruling indicates that SCE is to post notice of the public participation hearings on its website and in all of SCE's offices where customers come into contact with a SCE customer service representative. SCE no longer has any customer service centers. Thus, in lieu of posting notice at customer service centers, SCE sent notice to all of its cities/counties (similar to the notice requirement under Rule 3.2 for Applications) on March 2, 2021.

Pursuant to Rule 13.1(b), notice of the hearings is to be published no more than 30 nor less than five days prior to the first day of the hearing.

Pursuant to Rule 13.1(c) and Administrative Law Judge Toy's January 21, 2021 e-mail ruling, the public participation hearing notice was sent as bill insert to all customers via postal service and e-mails.

The following exhibits are attached in support of this Proof of Compliance:

1. Exhibit A: Declaration of SCE employee Javier Aguiniga dated April 6, 2021, in support of proof of the newspaper publication of the *Southern California Edison's Notice of Public Forum (Public Participation Hearing) regarding Request to Increase Water and Electricity Rates Application A.20-10-018* ("Notice"), in accordance with Rule 13.1(b). The following documents are attached to this Declaration as required by Rule 13.1(b): (1) Sample of the Notice provided to newspapers for publication, Attachment A-1; and (2) Newspaper publication schedule, Attachment A-2.

2. Exhibit B: Declaration of SCE employee Javier Aguiniga dated April 6, 2021, in support of proof of posting *Southern California Edison's Notice of Public Forum (Public Participation Hearing) regarding Request to Increase Water and Electricity Rates Application A.20-10-018*, on www.sce.com/notices. A sample of the Notice as posted on www.sce.com/notices is attached to this declaration as B-1.

The following documents are attached to this Declaration as Attachment C-1, Sample of the Notice as a bill insert and Attachment C-2, sample of the electronic link to the Notice for customers that receive their bills electronically.

4. SAMPLE OF NOTICE AS PUBLISHED IN NEWSPAPERS

The public forums can be viewed via internet, or listened to via phone, with the information above. If you wish to make a public comment, please participate by phone using the phone number above and pressing *1. Your participation by providing your thoughts on SCE's request can help the CPUC make an informed decision. **Please note:** If you need a language interpreter, please contact the CPUC's Public Advisor's Office using the contact information at the end of this notice at least five business days before the Public Forum.

Why am I receiving this notice?

On October 30, 2020, SCE filed with the CPUC Application No. 20-10-018 for authority to increase rates for SCE's Catalina Water Utility and recover costs from water and electric customers. SCE's cost recovery proposal will likely increase the electricity rates for SCE's system-wide electric customers in SCE's service territory.

The application is requesting an authorized base revenue requirement of \$9.3 million from Catalina water customers, to be phased-in over a five-year period from 2022-2026. SCE also requests a broader allocation of \$29 million in extraordinary drought and environmental costs for recovery from SCE's system-wide electric customers. A total of \$29 million in drought and environmental expenses, as well as deferred revenues from SCE's proposed five-year revenue requirement phase-in.

Why is SCE requesting these rate increases?

SCE is requesting this rate increase to recover its expenses, among other things, for:

- Increased operating expenses required to operate the Catalina Water safely and effectively;
- Routine capital infrastructure necessary to produce and distribute safe drinking water to customers and visitors to Catalina;
- Incremental Operations and Maintenance expense due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan; and
- Environmental related capital expenditures completed between 2012 and 2019.

How could this affect my electricity bill?

If SCE's rate request is approved by the CPUC, the average residential monthly bill using 550 kWh per month would increase by approximately \$0.29 or 0.2% per month in 2022.

How could this affect my water bill in Catalina Island?

If SCE's rate request is approved by the CPUC, there will be a five-year rate increase for SCE's Catalina water customers beginning in 2022. The average residential bill with a 5/8" meter using 1,466 gallons per month would increase by approximately \$29.03 or 40% per month in 2022 and up to approximately \$110.52 or 153% in 2026.

How does the rest of this process work?

This application has been assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SCE's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information on the Public Advocates Office please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

On October 13, 2016, the California Public Utilities Commission (CPUC) issued Decision (D.)16-10-008, which approved a Settlement Agreement between Southern California Edison Company (SCE), The Office of Ratepayer Advocates (ORA), and The Utility Reform Network (TURN). The Settlement Agreement resolves litigation regarding three previous CPUC Decisions that awarded SCE shareholder incentives for energy efficiency savings achieved during the 2006-2008 Energy Efficiency program cycle. Pursuant to the Settlement Agreement, SCE agrees to return to its customers \$13.5 million in equal amounts over a three year period. Alternatively, at its option SCE may accelerate the refund by crediting the present value, \$12.38 million, via a one-time credit to SCE's Base Revenue Requirement Balancing Account (BRRBA) within 30 days of CPUC's approval of the Settlement Agreement. SCE elected to accelerate the refund, and on November 11, 2016, SCE credited the BRRBA in the amount of \$12.38 million, which offsets the rates SCE collects from its customers through the BRRBA. Please note: If you need a language interpreter, please contact the CPUC's Public Advisor's Office using the contact information at the end of this notice at least five business days before the Public Forum.

Why am I receiving this notice?

On October 30, 2020, SCE filed with the CPUC Application No. 20-10-018 for authority to increase rates for SCE's Catalina Water Utility and recover costs from water and electric customers. SCE's cost recovery proposal will likely increase the electricity rates for SCE's system-wide electric customers in SCE's service territory.

The application is requesting an authorized base revenue requirement of \$9.3 million from Catalina water customers, to be phased-in over a five-year period from 2022-2026. SCE also requests a broader allocation of \$29 million in extraordinary drought and environmental costs for recovery from SCE's system-wide electric customers. A total of \$29 million in drought and environmental expenses, as well as deferred revenues from SCE's proposed five-year revenue requirement phase-in.

Why is SCE requesting these rate increases?

SCE is requesting this rate increase to recover its expenses, among other things, for:

- Increased operating expenses required to operate the Catalina Water safely and effectively;
- Routine capital infrastructure necessary to produce and distribute safe drinking water to customers and visitors to Catalina;
- Incremental Operations and Maintenance expense due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan; and
- Environmental related capital expenditures completed between 2012 and 2019.

How could this affect my electricity bill?

If SCE's rate request is approved by the CPUC, the average residential monthly bill using 550 kWh per month would increase by approximately \$0.29 or 0.2% per month in 2022.

Proposed Electricity Rate Increase

CARE residential bill	\$	86.36	\$ 0.20	\$ 86.55	0.2%

How could this affect my water bill in Catalina Island?

If SCE's rate request is approved by the CPUC, there will be a five-year rate increase for SCE's Catalina water customers beginning in 2022. The average residential bill with a 5/8" meter using 1,466 gallons per month would increase by approximately \$29.03 or 40% per month in 2022 and up to approximately \$110.52 or 153% in 2026.

In the tables below, SCE is showing the impact of the initial rate increase in Year 1 as well as the impact to collect the full revenue requirement in Year 5. The Year 1 proposed rate change in Table 1 is calculated above current authorized rates. The Year 5 rate change in Table 2 is calculated above the proposed Year 4 rates.

Why am I receiving this notice?

On October 30, 2020, SCE filed with the CPUC Application No. 20-10-018 for authority to increase rates for SCE's Catalina Water Utility and recover costs from water and electric customers. SCE's cost recovery proposal will likely increase the electricity rates for SCE's system-wide electric customers in SCE's service territory.

The application is requesting an authorized base revenue requirement of \$9.3 million from Catalina water customers, to be phased-in over a five-year period from 2022-2026. SCE also requests a broader allocation of \$29 million in extraordinary drought and environmental costs for recovery from SCE's system-wide electric customers. A total of \$29 million in drought and environmental expenses, as well as deferred revenues from SCE's proposed five-year revenue requirement phase-in.

Why is SCE requesting these rate increases?

SCE is requesting this rate increase to recover its expenses, among other things, for:

- Increased operating expenses required to operate the Catalina Water safely and effectively;
- Routine capital infrastructure necessary to produce and distribute safe drinking water to customers and visitors to Catalina;
- Incremental Operations and Maintenance expense due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan; and
- Environmental related capital expenditures completed between 2012 and 2019.

How could this affect my electricity bill?

If SCE's rate request is approved by the CPUC, the average residential monthly bill using 550 kWh per month would increase by approximately \$0.29 or 0.2% per month in 2022.

Proposed Electricity Rate Increase

Bundled Average Rates (¢/kWh)

CARE residential bill	\$ 86.36	\$ 0.20	\$ 86.55	0.2%	

How could this affect my water bill in Catalina Island?

If SCE's rate request is approved by the CPUC, there will be a five-year rate increase for SCE's Catalina water customers beginning in 2022. The average residential bill with a 5/8" meter using 1,466 gallons per month would increase by approximately \$29.03 or 40% per month in 2022 and up to approximately \$110.52 or 153% in 2026.

In the tables below, SCE is showing the impact of the initial rate increase in Year 1 as well as the impact to collect the full revenue requirement in Year 5. The Year 1 proposed rate change in Table 1 is calculated above current authorized rates. The Year 5 rate change in Table 2 is calculated above the proposed Year 4 rates.
